MUSEUM METALS STUDIO

The Metal Museum's **metalworking facilities** are known for producing a wide range of high-quality projects in various metals. Our artisans, blacksmiths, and casting staff specialize in public and private custom-made and commissioned work. This includes small- and large-scale sculptures, specialty architectural elements, awards, and plaques as well as historic reproductions of items no longer commercially available. **Contact us today and let us bring your artistic vision to life!**

Materials:

STEEL | CAST IRON | COPPER | BRONZE | ALUMINUM

For more information about custom metalwork, please inquire at the admissions desk or email studio@metalmuseum.org.

**At this time, the Metals Studio does not offer custom jewelry services.*
